CoreLife Healthcare Aids in Administration of COVID-19 Vaccine

CoreLife is offering vaccinations to qualified individuals at 18 Maryland-based clinics

MILLERSVILLE, M.D., APRIL 26, 2021 -- Earlier this month, CoreLife Healthcare began offering COVID-19 vaccinations in its 18 Maryland locations to aid the state's effort of rolling out the COVID-19 vaccine. CoreLife was selected to take part in the vaccine rollout due to its unique program specializing in treatment of higher risk patients. Vaccines administered by CoreLife are available to all Marylanders. The clinics are actively administering the Moderna vaccine, which all adults over the age of 18 are eligible.

"We are very proud to have this opportunity of opening up CoreLife's Maryland based locations to contribute in the fight against COVID-19 by providing vaccines per the state guidelines," said CoreLife's President, Sean Kostkowski. "CoreLife has always been and will continue to be a reliable resource in providing safe and effective care to the communities for which we serve. We are grateful to the State of Maryland and Maryland Department of Health for their diligent work through these challenging times."

To register with CoreLife to receive the vaccine, visit www.corelifemd.com/covid19-vaccine. For more information about the phased vaccination rollout in Maryland by CoreLife, residents can visit https://covidlink.maryland.gov/content/vaccine/.

About CoreLife:
